

## Bouvry Exports EID Instructions

Below you will find an easy to use guide on filling out the Equine Identification Document (EID) in order for a horse to be accepted.

As of July 31, 2010 it is MANDATORY for all equines to be accompanied with an accurate and properly completed EID.

EID's were introduced as a way to maintain traceability.

The benefits of an EID are the accountability to the horse owner, the traceability for the abattoir and the consumer confidence in safe Canadian equine products. Thus, EIDs must be filled out with the most accurate information available.

Falsification of an EID may result in monetary fines, restrictions on bringing in future horses and individuals being completely banned from the facility.

Random blood/tissue samples are taken internally and by the Canadian Food Inspection Agency (CFIA) on a daily basis. Positive results are confirmed with a third party lab. The horse owner is notified of the positive test and CFIA will do a full investigation.

We hope that this information is helpful! If you have any questions or need assistance with filling out an EID you can contact our livestock office Monday – Friday 8am- 4pm @ 403-553-4431

# EQUINE INFORMATION DOCUMENT (EID)

12

**DRAWING** (the picture shall not be required if): Lines are to be drawn on the diagrams representing white areas on the animal where applicable with red pen the others with black pen. Mark whorls with an "X". Mark the location of scars with an "—". If an official passport, the passport may be attached. Attached EID from the previous owner(s).

For more explanation on the color terms or marks, consult the internet site:  
<http://www.inspection.gc.ca/english/fsai/meavla/manich17/annexe.shtml>

**BUYER AND OFFICE USE ONLY**

Buyer ID (batch number)	
# of horses shipped	
Tag number	
Export Tag Number	
Slaughter serial #	

OWNER'S NAME: 1

FULL ADDRESS: 2

PHONE NUMBER: 3

PRIMARY LOCATION OF ANIMAL: 4

PRIMARY USE OF ANIMAL: 5

SEX: (circle one) Mare, Stallion, Gelding, Filly, Colt      AGE: 6

LIST VISIBLE ACQUIRED MARKS: (brands, tatoos, scars, etc....& location) 7

**OPTIONAL PICTURE:** A clear printed color picture showing each of the views in the diagram (on the left) may be attached to this document. The picture should be large enough to see the details required (print views on a standard 8.5 x 11 page). **NOTE:** The body color, head markings, coat markings and limb markings still need to be checked off in the appropriate boxes under the diagram.

**OWNER SIGN AND DATE PICTURE**

1. Have any drugs or vaccines been administered to or consumed by the animal during the last 180 days (6 months) or during the time you owned the animal? 8  
 \_\_\_ Yes \_\_\_ No  
 IF YES: write the name of the drug(s) or vaccine(s), last date of use, dosage per treatment and the withdrawl date on the backside of this page.

2. Has the animal identified on this document been diagnosed with an illness during the last 180 days (6 months) or during the time you owned the animal? 9  
 \_\_\_ Yes \_\_\_ No  
 IF YES: provide details with dates of diagnosis and recovery on the backside of this page.

3. Has the animal identified on this document, to your knowledge, been treated with a substance listed under the table named substances not permitted for use in the food processing equine found in section E.5 (CFR) during the last 180 days (6 months) or during the time you owned the animal? 10  
 \_\_\_ Yes \_\_\_ No

4. I understand that, effective July 31, 2010, at least six continuous months of documented acceptable history is required for an equine presented for processing in an establishment inspected by CFIA.

As owner of the animal identified on this document I hereby certify that the information on this EID is accurate and complete and I have had uninterrupted possession, care or control of the animal

from: (date) \_\_\_\_\_ to: (date) \_\_\_\_\_ 11  
**SIGNATURE**

**(\*\*DO NOT USE BLACK INK—ONLY BLUE INK IS ALLOWED OR DOCUMENT IS VOID\*\*)**

**TRANSIENT AGENT DECLARATION(S)**

This animal identified on this document has been under my care and control from \_\_\_\_\_ (date) to \_\_\_\_\_ (date)  
 During this time period the identified animal has not been given or fed drugs or vaccines and has not shown any signs of illness.

Name of Agent: \_\_\_\_\_  
 Address: \_\_\_\_\_  
 Phone Number: \_\_\_\_\_  
 Signature of Agent: \_\_\_\_\_

1. Name- Must be owner of horse
  - a. Proof of sale must be provided if horse is branded with a registered brand not registered to the listed owner on EID document.
2. Address: Must provide full mailing address
3. Phone Number- Must provide active phone number/numbers for owner of horse
4. Primary location of animal- Must be rural address or land location coordinates.  
Ex. 211409 TWP 20-1 or AA01LB3PB .CANNOT be mailing address (box number)
5. Primary use of animal- ex. pleasure, rodeo, working, breeding mare.
6. Approximate age of animal- if not know please fill out \*UNK\*

7. Listing of all visible acquired markings- Marks that the horse was not born with or has “acquired” throughout their life.
8. If marked yes, please list; date, dose, administration type (ex. Pills, liquid, cream) and withdrawal period listed on treatment given.
9. If marked yes, please provide details of diagnosis and recovery on back side of sheet.
10. For reference a list of prohibited drugs can be found at <https://www.inspection.gc.ca/food-safety-for-industry/archived-food-guidance/meat-and-poultry-products/manual-of-procedures/chapter-17/annex-e/eng/1370023131206/1370023203607#e5>
11. Dates MUST be as accurate as possible and must read month-day-year ( ex: May-3-2016)

By signing the owner declaration you are confirming that the information you have provided is as accurate as possible.

## 12. Written Description

- a. Height to be recorded in hands. 1 hands = 4inches
- b. White marking MUST be recorded in **RED** pen. Other marking are to be done in **BLACK** pen. ( See below for directions on how to fill out drawing accurately)
- c. Color of horse: See list below

**Black:** When black pigment is general throughout the coat, limbs, mane and tail, with no pattern factor present other than white markings.

**Brown:** When there is a mixture of black and brown pigment in the coat, with black limbs, mane and tail.

**Bay-brown:** When the predominate color is brown, with muzzle bay, black limbs, mane and tail.

**Bay:** Bay varies considerably in shade from dull red approaching brown, to a yellowish color approaching chestnut, but it can be distinguished from the chestnut by the fact that the bay has a black mane and tail and almost invariably has black on the limbs and tips of the ears.

**Chestnut:** This color consists of yellow-colored hair in different degrees of intensity, which may be noted if thought desirable. A "true" chestnut has a chestnut mane and tail which may be lighter or darker than the body color. Lighter colored chestnut may have flaxen mane and tail. The *sorrel* color must be reported under that name.

**Grey:** When the body coat is a varying mosaic of black and white hair, with black skin. With advancing age, the coat grows lighter in color. The flea-bitten grey may contain three colors or the two basic colors and should be so described. A pure white is exceptional.

**Mouse:** This description is sometimes used for a grey horse with black mane and tail.

**Blue roan:** When the body color is black or black-brown, with a mixture of white hair, which gives a blue tinge to the coat. On the limbs from the knees and hocks down, the black hair usually predominates.

**Bay roan:** When the body color is bay or bay-brown, with an admixture of white hair, which gives a reddish tinge to the coat. On the limbs from the knees and hocks down the black hairs usually predominate.

**Strawberry/ Chestnut Roan:** When the body color is chestnut with an admixture of white hairs.

**Blue dun:** The body color is a dilute black evenly distributed. The mane and tail are black. There may or may not be a dorsal band (list) and/or withers stripe. The skin is black.

**Yellow dun:** There is a diffuse yellow pigment in the hair. The mane and tail are black. There may or may not be a dorsal band (list) and/or withers stripe and bars on the legs. The striping is usually associated with black pigment on the head and limbs. The skin is black.

**Piebald:** The body coat consists of large irregular patches of black and white. The line of demarcation between the two colors is generally well defined.

**Skewbald:** The body consists of large irregular patches of white and of any definite color except black. The line of demarcation between the colors is generally well-defined.

**Odd colored:** The body coat consists of large irregular patches of more than two colors, which may merge into each other at the edges of the patches.

**Isabella:** The body coat is of a cream color, with black mane and tail.

**Cream:** The body coat is of a cream color, with non-pigmented skin. The iris is deficient in pigment and is often devoid of it, giving the eye a pinkish or bluish appearance.

**Palomino:** The body coat is a newly-minted gold coin color (lighter or darker shades are permissible) with a white mane and tail.

**Appaloosa:** Body color is grey, covered with a mosaic of black or brown spots.

d. Head markings- refer to link below for reference

e. Coat Markings- Please refer to link below for reference

f. Limb markings- Please refer to link below for reference

Part 12- Completing the diagram directions:

Anything that appears as white on the animal MUST  
This includes;

- White marks
- Bordered marks
- Mixed marks
- Few white hairs
- Unpigmented areas
- White patches
- The presences of white hairs in the mane or tail if main color of mane or tail is not white.
- Permanent white marks in the coat obtained through trauma, freeze branding, surgery, ect.

<https://www.inspection.gc.ca/animal-health/terrestrial-animals/diseases/accredited-veterinarian-s-manual/chapter-2/eng/1345231064142/1345231128550?chap=2>

Identifying markings which are not white MUST be show in **BLACK** pen

- Whorls
- Black spots and marks
- Scars
- Brand marks
- Zebra marks, wither stripes and lists

General directions for filling out;

- MUST BE IN **BLUE** PEN
- Original copy must accompany horse to slaughter facility.
- Photocopy of EID will not be accepted  
Only the horse owner may sign the owner declaration
- If horse is branded with a brand not registered to the listed owner a bill of sale must accompany the EID form.
- Mistakes must be initialed
- Do not fill out Transient Agent declaration section
